

# MEDLEY

# MEDLEY

Il pavimento alla veneziana, conosciuto anche col nome di terrazzo o seminato, nasce in Italia dalla maestria di esperti artigiani. Dall'interpretazione in chiave contemporanea di questo simbolo di pura classicità si sviluppa la collezione Medley. Un abaco di materie ceramiche pensato per la progettazione e per la sperimentazione architettonica. La collezione si compone di due varianti di cemento, Minimal e Tecnica, a cui si aggiungono 3 seminati di Terrazzo: Classic, Rock e Pop, che si caratterizzano in base alla dimensione e alla forma delle scaglie. Gli intrecci geometrici evocano il principio compositivo originale dei terrazzi, superandolo ed evolvendolo ad una nuova soluzione in cui i segni grafici e i colori sperimentano nuovi accostamenti, amalgamandosi in una maggiore ricerca creativa. Dalla combinazione di questi seminati dalla forte personalità nasce una varietà inedita di proposte per una libertà progettuale estrema che prende forma dai diversi accostamenti di colori di fondo e dimensioni delle forme. Medley è duttile e plasmabile, adatta ad ambienti anche molto differenti per tipologia e destinazione d'uso accomunati dalla ricercatezza e dalla raffinatezza di uno stile contemporaneo e senza tempo.

POP

Venetian Seminato or Terrazzo flooring was created in Italy by master-craftsmen. The reworking of this symbol of pure classical style for contemporary taste has created the Medley collection. An abacus of ceramic materials, conceived for architectural design and experimentation. The collection comprises two concrete variants, Minimal and Tecnica, together with 3 Venetian Terrazzo versions, Classic, Rock and Pop, which differ in the size and shape of their constituent pieces. The geometrical interweavings evoke the principle of the original Terrazzo compositions, while surpassing it and evolving it towards a new concept in which graphics and colours experiment with new combinations, merging in a higher degree of creative freshness. The combination of these Venetian Seminato materials, with their strong personality, generates an original variety of ideas for extreme design freedom, with different associations of background colours and shape dimensions. Medley is ductile and malleable, suitable even for locations of widely different type or intended use, but all sharing the cutting-edge design and sophistication of a timeless contemporary style.

## 20MM

Medley 20mm offre la possibilità di realizzare spazi esterni di grande valore estetico, senza rinunciare alle prestazioni tecniche.

Le caratteristiche specifiche di Medley 20mm permettono di integrare perfettamente il materiale con l' ambiente circostante, offrendo la possibilità di creare in modo semplice ed efficace camminamenti e percorsi outdoor. L' alto spessore di Medley 20mm garantisce un' elevata resistenza rendendolo ideale negli ambienti interni ed esterni pubblici.

Medley 20mm è facile da posare su erba, su sabbia, su ghiaia. La posa a colla su massetto permette di realizzare pavimentazioni carrabili industriali e commerciali. Ideale per rampe di accesso e garage. Medley 20mm è l' ideale per la creazione di pavimenti sopraelevati.

Medley 20mm offers the chance to develop extremely aesthetically pleasing external spaces without compromising on technical expertise.

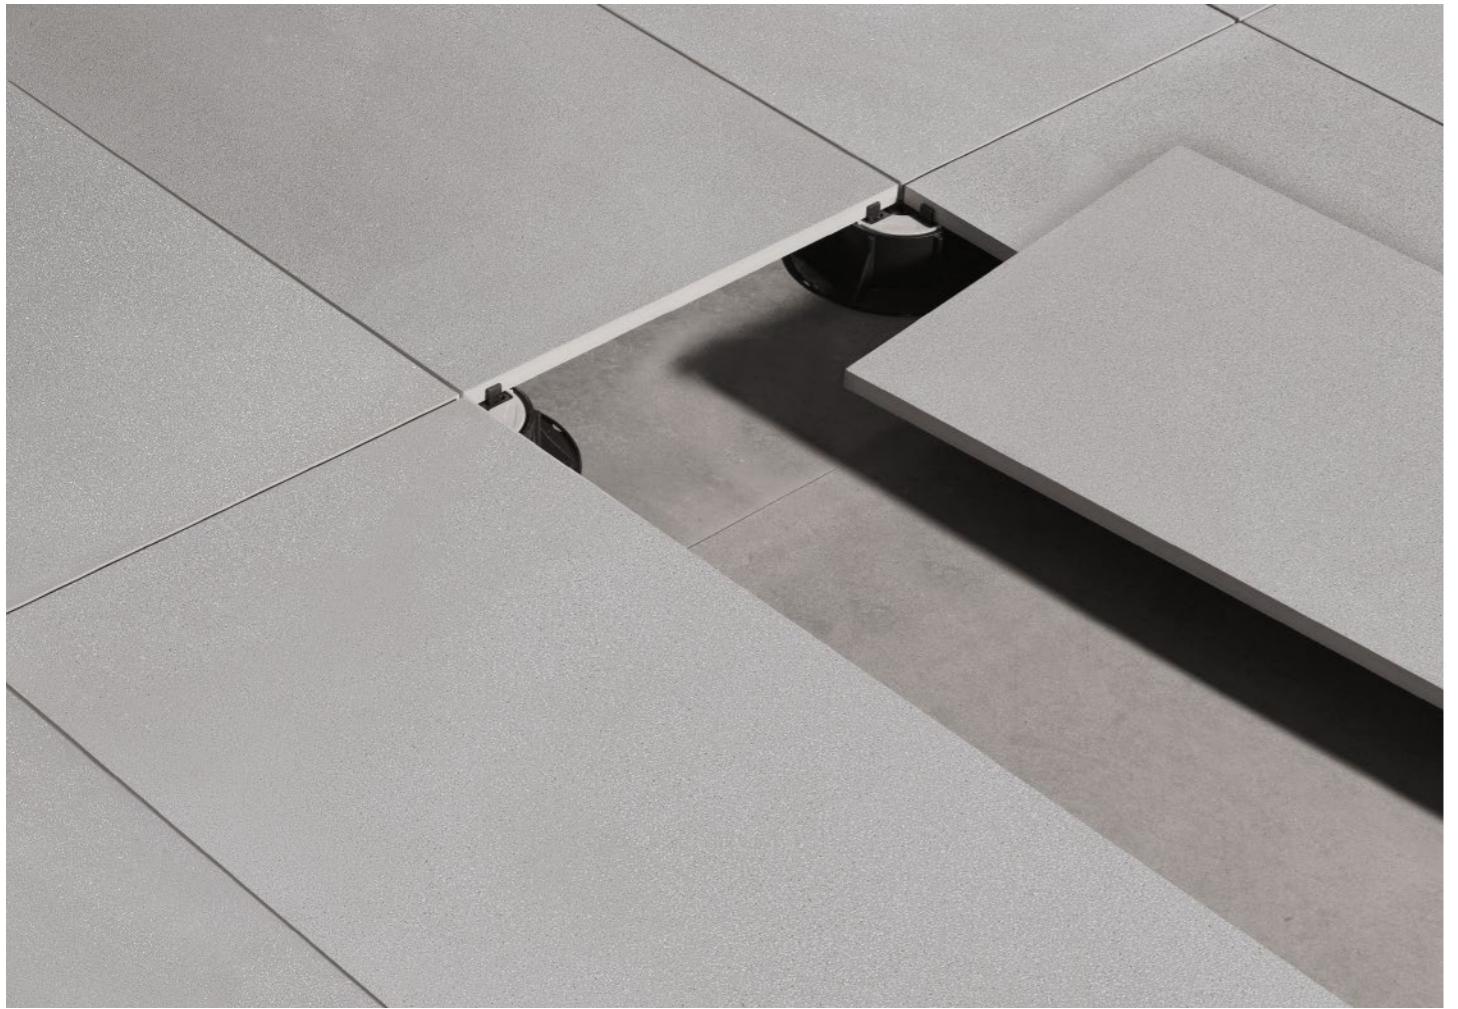

The specific qualities of Medley 20mm allow you to perfectly integrate the material in the surrounding environment, making it possible to create walkways and outdoor paths easily and effectively. The thickness of Medley 20mm guarantees excellent resistance, making it ideal for use in both indoor and outdoor public spaces. Medley 20mm is easy to lay on grass, sand and gravel. By gluing it down to screed it is possible to create industrial and commercial paved driveways. Ideal for access ramps and garages. Medley 20mm is ideal for the creation of cavity floors.

20MM

Medley 20mm offre la possibilité de réaliser des espaces extérieurs d'une grande valeur esthétique, sans toutefois renoncer aux prestations techniques. Les caractéristiques spécifiques de Medley 20mm permettent d'intégrer parfaitement le matériau à l'environnement ambiant, offrant la possibilité de créer simplement et efficacement des parcours faciles à nettoyer. L'épaisseur de CornerstoneAlpen 20mm garantit une résistance élevée aux charges et aux sollicitations, la rendant idéale pour l'intérieur et l'extérieur des espaces publics. Medley 20mm est facile à poser sur l'herbe, le sable et le gravier. Une fois collé sur chape, le produit permet de réaliser des sols carrossables pour des espaces industriels et commerciaux. Idéal pour rampes d'accès et garages. Medley 20mm est idéale pour la création de planchers surélevés.

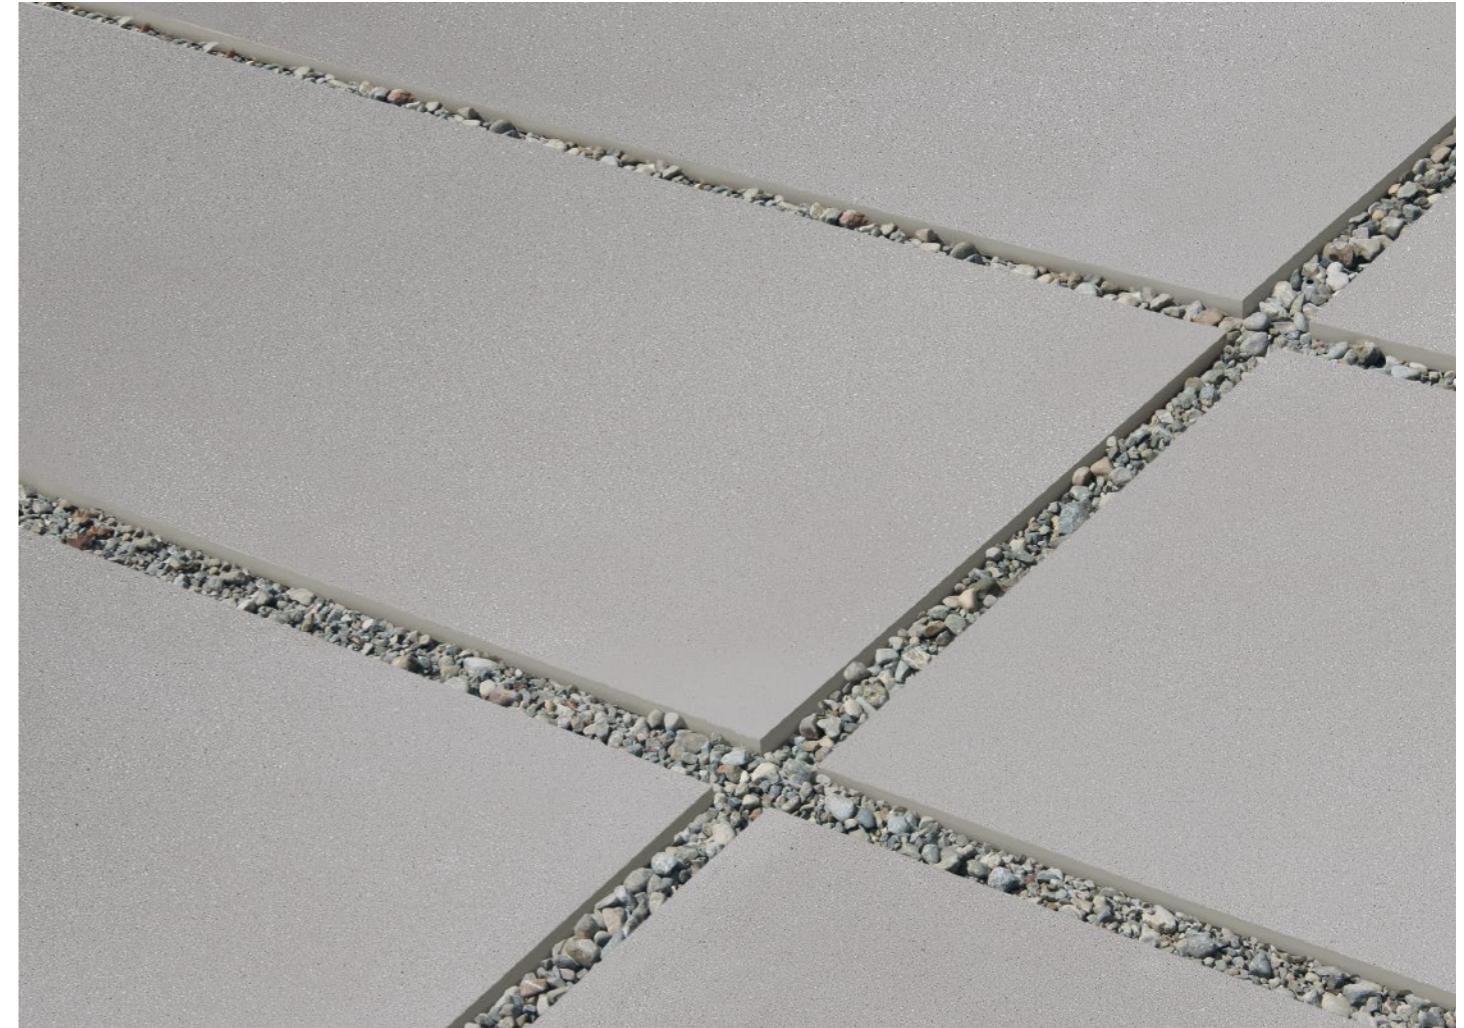

Medley 20mm bietet eine wertige Optik und ausgezeichnete Leistungsmerkmale und ist die ideale Lösung für die Gestaltung von Außenbereichen. Die spezifischen Eigenschaften von Medley 20mm gestatten eine perfekte Einbindung des Materials in den räumlichen Kontext und die einfache Gestaltung von Geh- und Fahrwegen im Außenbereich. Die hohe Fliesenstärke von Medley 20mm gewährleistet eine ausgezeichnete Robustheit. Damit erweist sich die Kollektion als ideal für öffentliche Innen- und Außenbereiche. Medley 20mm lässt sich problemlos auf Gras, Sand und Kies verlegen. Für befahrbare industrielle und gewerbliche Bodenbeläge empfiehlt sich die Verbundverlegung auf Estrich. Ideal für Zufahrten und Garagen. Medley 20mm ist die perfekte Lösung für Doppelböden.

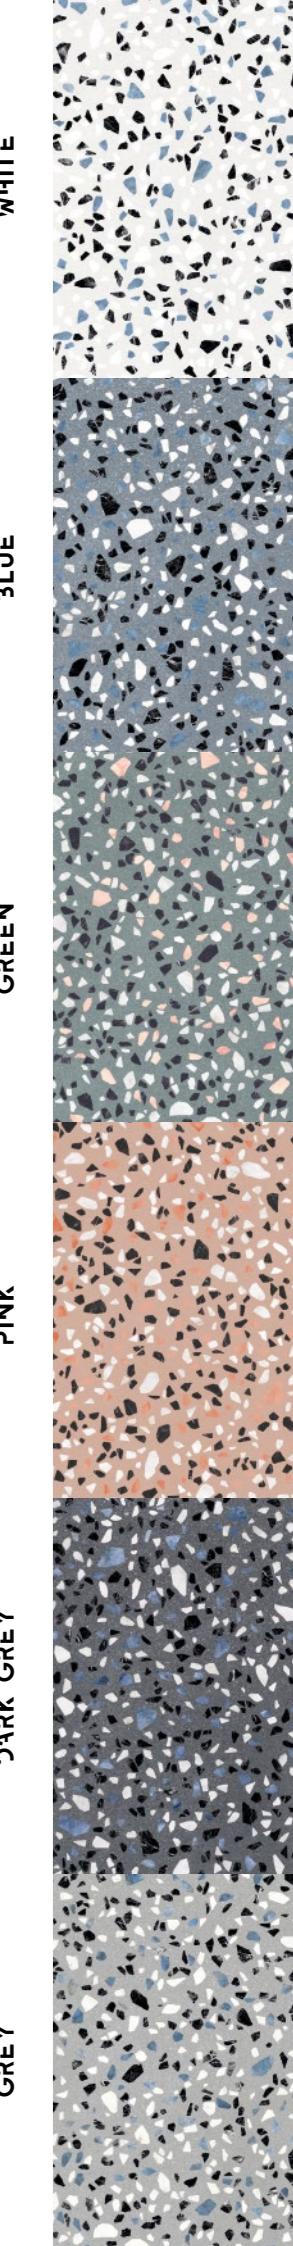

Medley 20mm ofrece la posibilidad de revestir espacios exteriores de modo estéticamente muy agradable sin por ello tener que renunciar a unas magníficas prestaciones técnicas. Las características específicas de Medley 20mm permiten integrar perfectamente el material en el entorno, brindando la posibilidad de crear de manera sencilla y eficaz caminitos y carriles al aire libre. El elevado grosor de Medley 20mm garantiza una considerable resistencia, hecho por el que este tipo de material resulta de lo más idóneo para ámbitos públicos, tanto interiores como exteriores. Medley 20mm se puede colocar fácilmente sobre superficies tan diversas como la hierba, la arena y la grava. Colocado con cola sobre la capa de relleno, permite realizar pavimentaciones transitables industriales y comerciales. Ideal para rampas de acceso y garajes. Medley 20mm es un material de lo más idóneo para la creación de pavimentos sobreelevados.

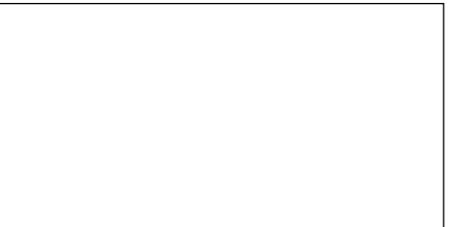

С помощью представленной в коллекции Medley 20mm можно обустроить открытые площадки, придавая им высокую эстетическую ценность и не поступаясь какими-либо техническими характеристиками. Благодаря особым свойствам представленная в коллекции Medley 20mm гармонирует с окружающей средой. С ее помощью можно легко проложить надежные дорожки и переходы вне помещений. Представленная в коллекции Medley 20mm отличается высокой прочностью, а потому идеально подходит для обустройства помещений общественных зданий и прилегающих территорий. Представленная в коллекции Medley 20mm легко укладывается на траву, песок и щебень. Укладка на клей поверх стяжки позволяет обустроить территорию для проезда на промышленных и коммерческих предприятиях. Идеально подходит для наклонных въездов и гаражей. Представленная в коллекции Medley 20mm идеально подходит для монтажа фальшполов.

## MEDLEY

## POP

Le revêtement de sols vénitien, également connu sous le nom de terrazzo ou seminato, est né en Italie de la maîtrise d'artisans experts. La collection Medley est développée à partir de l'interprétation contemporaine de ce symbole du classicisme pur.  
Un abaque de matériaux céramiques conçu pour la conception et l'expérimentation architecturale. La collection comprend deux variantes de bétons, Minimal et Technica, auxquelles s'ajoutent 3 versions de carrelages en seminato/terrazzo veneziano : Classic, Rock et Pop, qui se caractérisent en fonction de la taille et de la forme des éclats. Les entrelacs géométriques évoquent le principe de composition original des revêtements de sols en terrazzo, en le dépassant et en le transformant en une nouvelle solution dans laquelle les signes graphiques et les couleurs expérimentent de nouvelles combinaisons, se fondant dans une recherche créative plus poussée. La combinaison de ces carrelages en seminato veneziano à la forte personnalité donne lieu à une variété sans précédent de propositions pour une liberté de conception extrême qui prend forme à partir des différentes combinaisons de couleurs de fond et de dimensions des formes.  
Medley est une collection flexible et malléable, adaptée à des environnements très différents en termes de typologie ou de destination de pose, mais unis par la recherche et le raffinement d'un style contemporain et intemporel.

El pavimento veneciano, conocido también con el nombre de terrazo veneciano o seminato veneziano, nace en Italia de la experiencia de maestros artesanos. A partir de la interpretación en clave contemporánea de este símbolo de clasicismo auténtico, se desarrolla la colección Medley. Esta tabla de materias cerámicas ha sido concebida pensando en el diseño y la experimentación en la arquitectura. La colección consta de dos variantes de cemento, Minimal y Technica, a las que se añaden tres versiones de seminato de Terrazzo –Classic, Rock y Pop– que se distinguen por el tamaño y la forma de los esquirlas. Las tramas geométricas de las tres versiones evocan el principio compositivo original de los terrazos, en el que se basan para construir una solución evolucionada en la que los signos gráficos y los colores experimentan nuevas combinaciones y se amalgaman con mayor intención creativa. De la combinación de estos terrazos venecianos, dotados de fuerte personalidad, nace una serie inédita de propuestas que ofrecen una amplísima libertad proyectiva, la cual cobra forma a partir de las distintas asociaciones de colores de fondo y tamaños de las formas. Medley es dúctil y modelable, adecuada para espacios que incluso pueden diferir mucho unos de otros por su tipo o uso previsto, pero que tienen en común la sofisticación y el refinamiento de un estilo contemporáneo y atemporal.

Der venezianische Boden, auch unter der Bezeichnung Terrazzo bekannt, ist ein Produkt der meisterhaften italienischen Handwerkstradition. Aus der modernen Interpretation dieses echten Klassikers entstand die Kollektion Medley.  
Eine Palette keramischer Materialien, konzipiert für Gestaltungskonzepte, die Spielraum für das Experimentieren schaffen.  
Die Kollektion umfasst zwei Versionen in Betonoptik, Minimal und Technica, und drei sich in Größe und Form der Splitter unterscheidende Versionen in Terrazzo-Optik: Classic, Rock und Pop. Die geometrischen Kombinationen interpretieren das ursprüngliche Gestaltungsprinzip der Terrazzoböden und entwickeln es weiter zu einer innovativen Lösung, bei der die Strukturen und Farben zu einem neuen Mix verschmelzen, hinter dem eine starke kreative Idee steckt.  
Der Mix dieser prägnanten Terrazzo-Optiken bietet eine unglaubliche Vielfalt an Lösungen und eine enorme Gestaltungsfreiheit durch die möglichen Kombinationen zwischen Grundfarben und Splittern unterschiedlicher Größe.  
Anpassungsfähig und flexibel, eignet sich Medley für Räume, die in Art und Zweckbestimmung sehr unterschiedlich sein können, aber die Erlesenheit eines zeitlosen, modernen Stils gemeinsam haben.

Венецианский пол, известный также как "терраццо", появился в Италии благодаря мастерству опытных ремесленников.  
В результате современного переосмысления этого символа чистой классики появилась на свет коллекция Medley.  
Это - линейка керамических материалов, разработанная для проектирования и архитектурного экспериментирования.  
Коллекция предлагает два варианта цемента - Minimal и Technica, к которым прибавляются 3 варианта терракко (Terrazzo) - Classic, Rock и Pop, которые отличаются друг от друга размерами и формой крошки. Геометрическая игра воссоздает исходный композиционный принцип терраццо, переосмысливая и разевая его до получения нового решения, в котором графика и цвета экспериментируются в новых сочетаниях, предоставляемые большие возможности креативного поиска.  
Благодаря сочетаниям этих вариантов терраццо, каждого со своим характером, появляется на свет большое разнообразие предложений, обеспечивающее чрезвычайную свободу проектирования, основывающуюся на различных сочетаниях цветов фона и размера форм.  
Medley - это универсальная и податливая коллекция, пригодная для самых разнообразных пространств, отличающихся типом и назначением, но которые объединяет изысканность и утонченность современного и не знающего времени стиля.
