OASIS STORY

There is only one area of Italy where the air can blow in from foreign lands, that place is Friuli. And along with that wind comes history, style and certain ways of thinking.
It is here that the story of Oasis began, the result of a refined and eclectic merging of different cultures, civilisations, languages and cuisines often referred to around the world as “Italian style”.

1908
Floriano Quaia opens his first carpentry workshop: a small studio where furniture is made with the aim of lasting a lifetime.

1945
Bernardo Quaia, son of Floriano, sets down the foundations of a company where the first pieces of decorative furniture would later be developed.

1972
Francesco, Bernardo’s son, builds a factory and creates - using his surname - an actual brand. Together with his brother Floriano, he sets up Arredamenti Quaia.

1980
Arredamenti Quaia participates in the Salone del Mobile, Milan for the very first time. The accompanying burst of innovation marks a turning point for the company which sets its sights on ever broader horizons.

1984
During the flurry of the Eighties, Francesco Quaia establishes the Oasis brand, branching out into the production of bathroom furniture which thereafter becomes part of the company offer.

The New Millennium
At the turn of the Millennium, an impetus of change, of fresh new ideas, sweeps through the company in the form of the next generation, Francesco’s three children: Francesca, Federica and Lorenzo.

2001
The eldest, Francesca, is the first to work alongside her father in the business and, as assuming responsibility for the commercial direction of the company, is pivotal in steering it along the road to internationalisation.

2005
It sees the setting up of the first international base for the company, in the city of Moscow. Warm and harmonious Italian spirit meets the essence of regal Russia and the two succeed in winning one another over.

2006
Second daughter Federica, having specialised in the worldwide branding of luxury goods, takes over all aspects of image and communication within the company, thus assuming marketing and artistic control.

2008
Third-born Lorenzo completes the transition to the fourth generation. Specialising in project research and development as well as highly technical products, he becomes head of the technical production division.

2012
The Home line is completely revised and relaunched with the aim of offering, under the Oasis label, a complete and coordinated luxury interiors package inspired by the language of cosmopolitan and contemporary style.

2013
2013 sees monobrand flagship showrooms opening in both London and Hong Kong.

2016
Oasis selects the historical and very famous Libreria Bocca in Galleria Vittorio Emanuele II in Milan, as the exclusive location to display items from its collections, resulting in a coming together of two areas of Italian supremacy: culture and style.
The principal aim of the company was to locate the best environment in which to showcase to the general public their perhaps less conventional furniture items.

2017
Oasis celebrates the opening of a new showroom, focused on luxury bathrooms and located in the heart of Milan.

2018
During Salone del Mobile 2018, Oasis introduces the first issue of “Oasis World”, a publication that explores the company’s iconic look and philosophy in the world markets.
At the same time, the Oasis brand is expanding its presence in the Chinese market with the opening of another luxurious showroom in the vibrant city of Shanghai.

Nowadays
The company is a century-old family business characterised by courage, tradition and a strong identity. It has market presence in more than 25 countries, the main ones being: Russia, China, Ukraine, the United Kingdom, Germany, France, Switzerland, Belgium, India and the United States.
The Oasis production portfolio includes a wide range of furniture collections for the Home, the Bathroom and the Contract industry for the construction of projects for both residential and professional purposes.

LUXURY COLLECTION

The luxurious, extremely refined designs and decorations are inspired by the Art Deco period. Materials are among the most precious and sophisticated. The Italian manufacturing confers the final, valued and sophisticated touch.
Lacquered vanity units and cabinets, gold profiles and precious marble tops characterize this line, perfect for the most elegant locations.
The designed vanity consoles dialogue with accessories and complements: elegant ottomans and benches, bronzed and smoked wall mirrors, lights, tall units and towel holders, with matching finishings and colors, will please the even most demanding interior designers.
Once again the finest Italian manufacturing, with its ribbed or diamond-like decorated lacquering, the glasses and the marbles, furnish the most exclusive “salle de bains”, creating spaces to contemplate, relax, and pampering yourself in a sophisticated and comforting atmosphere.

LUTETIA

LUXURY COLLECTION

Lutetia was the name the Romans gave to Paris: the true capital of Art Déco – and this is the style behind the inspiration for this Luxury Bathroom line.
Vanities, cabinets and units are characterized by refined and decorative door and drawer fronts appliques.
The references to the Déco artistic movement are all the more evident in the details of the handles, the foot point, the squared lines and the sophisticated lacquered effects.
Mirrors and lamps – coordinated with the vanity units and the cabinets – are created to evoke the typical atmosphere of the Twenties.
Strong, high-impact "chiaroscuro" shades highlight the strict geometry and the details of the furniture; these elements only reinforce the appeal of pieces which are already elegantly balanced.
Voluptuous shapes inspired by the classic era are the main feature of the glossy resin sink, whose lines hint at its Directory-inspired base.
Last but not least, the many shades of lacquer – from vivid to pastel hues – allow for maximum customization.

PLISSE’

LUXURY COLLECTION

Essential, but sumptuous and elegant thanks to its delicate workmanship, the basin column Plissé draws its inspiration from the dense folding that allows to give body to the fabrics, at the same time leaving them free to flutter, underlining their movement. So is the basin column Plissé, with its important shape resembling a classical sculpture, lightened by the folding like an accordion, which creates an ideal movement, like temples of Greek architecture. Just like an ancient peplum, the basin column Plissé, made of white ceramic, has a ring decorating in gold or chrome metal, almost to underline the “waist”, as in a high fashion dress. Oasis, the Italian company with the widest offer of contemporary luxury bathroom furnishing, is always attentive to the evolution of style, and Plissé confirms this.
Thanks to its simple and precious elegance, Plissé fits perfectly in luxurious ambients, characterized by rigorous projects, with a particular attention to the details of interior architecture.

RIALTO

LUXURY COLLECTION

Rialto is a special edition collection, purposely created for the most refined of bathroom settings. As exclusive and elegant as the name suggests, Rialto takes its inspiration from sumptuous Venetian interiors and is enriched by superlative Made in Italy craftsmanship. The rigorous geometries of its Art Déco design are enhanced by a combination of precious materials and fine workmanship which highlight its exclusive and alluring character. The structure and surfaces are covered entirely with glass, with a choice of mirrored or black finish. The drawer fronts, mirror frames and edges of the tall-units feature a unique “ribbed” or “scalloped” effect and the geometric detail on the legs and structural parts resemble a cut diamond. The countertop basin is by gloss white resin and also features “ribbed” detail, displaying hallmark Art Déco geometries to reinforce the look and feel of a classic “salle de bain”.

RIVIERE

LUXURY COLLECTION

Riviere consists of consoles and vanity units in different materials and finishes, with a variety of basins, marbles and special glass. The collection features geometries inspired by Art Déco with crisp balanced lines and drawers with a high-impact handle design. The fronts and sides are available in lacquer, mirror including fumè and bronze versions or in decorative glass, thereby allowing the collection to convey different moods, from contemporary to more classical in style. The handles and feet, in either chrome or gold, define and reinforce the overall look. The basin console can incorporate either a countertop basin or an integrated model depending on the finish of the top, which can be in various marble types or coloured glossy glass. The furniture is available with a choice of one or two drawers or with two drawers and two or four doors; fronts and sides may be in lacquer, mirror including fumè and bronze versions or in decorative glass. The tops feature subtle forms with a neoclassical allure and the front edges are beveled to “give movement” to the rigorous geometries.
