Unità produttive

Production plants

Castenedolo Plant

1975 Bossini
Stabilimento Di Castenedolo

È la sede commerciale, amministrativa ed operativa del Gruppo. I reparti di progettazione e sviluppo dei prodotti e i laboratori si avvalgono delle più moderne tecnologie e dei più avanzati strumenti informatici. Qui operano gli impianti di tornitura, smerigliatura, pulitura e cromatura dei particolari metallici, gestiti con sofisticate macchine robotizzate che consentono un controllo totale di tutte le fasi di realizzazione del prodotto, oltre alla produzione di tubi flessibili, l'assemblaggio ed il confezionamento dei prodotti finiti.

This is the Group's business, administrative and production head office. The product planning and development departments and the testing laboratories use cutting edge technology and the most recently developed computer tools. This is where the metal parts are cleaned, polished and chromium-plated; the hoses are produced, assembly is carried out and the finished products are packed and forwarded. Everything takes place with the use of sophisticated robotized machinery allowing complete oversight in each phase of production.

Montichiari Plant

1990 Bossini
Stabilimento di Montichiari

Stampaggio e cromatura plastica

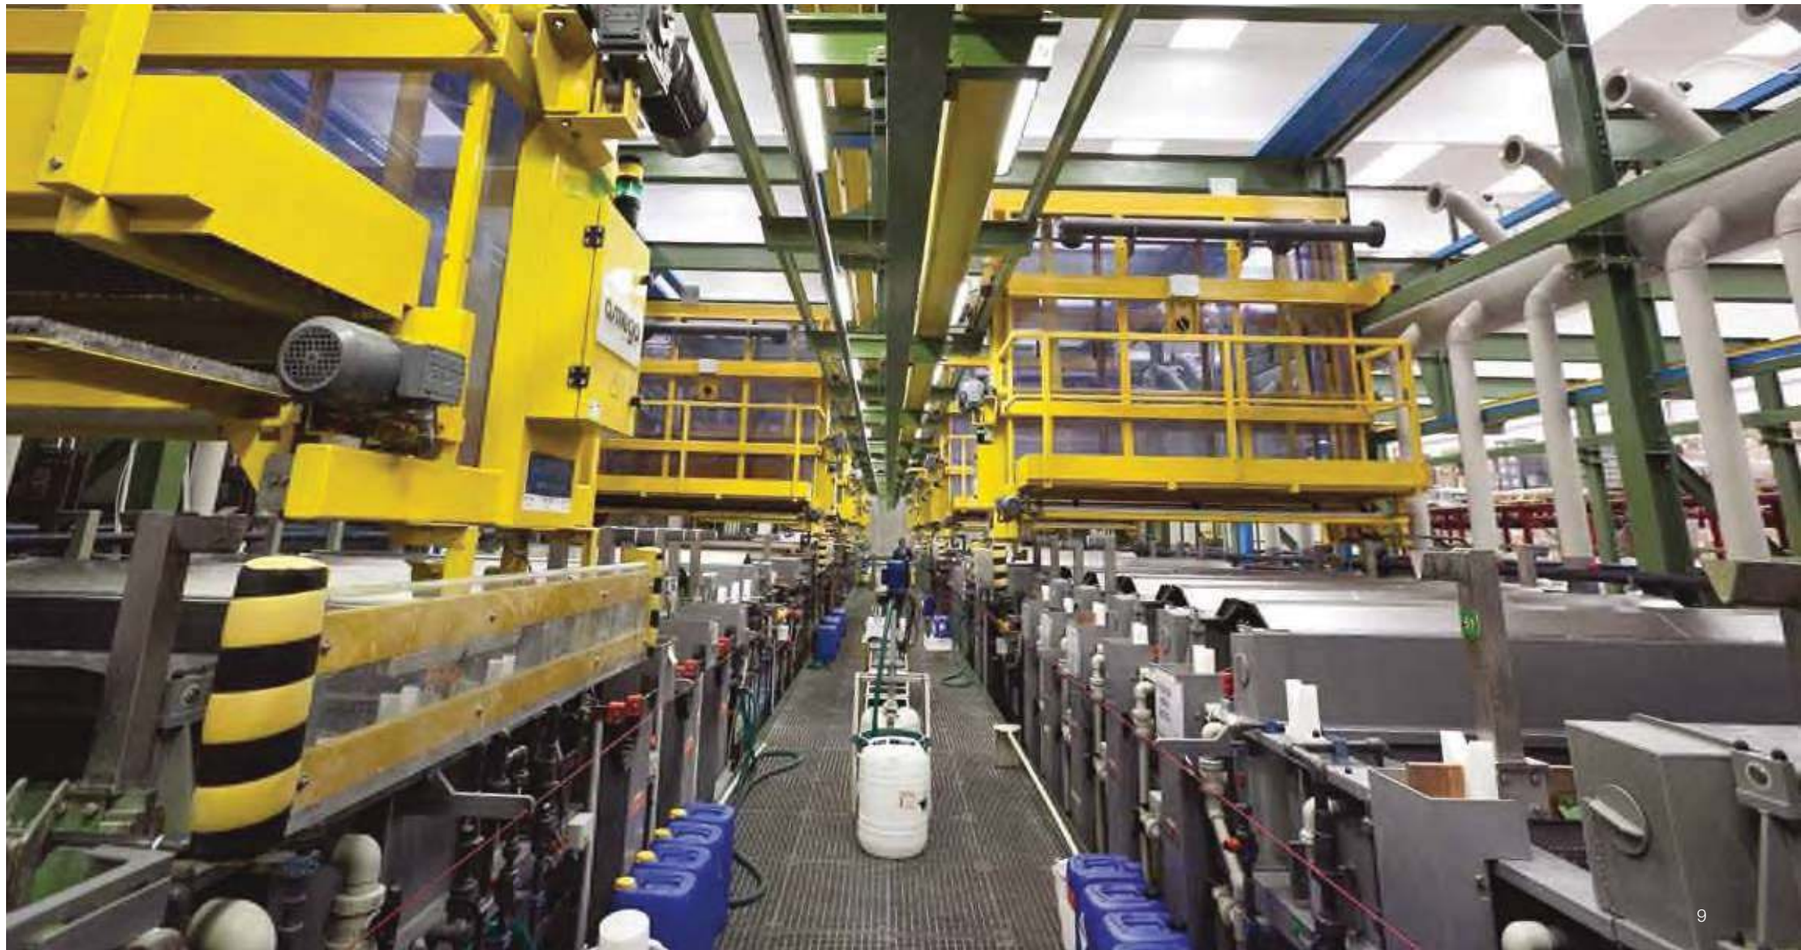

Nell'insediamento di Montichiari, operano i reparti di stampaggio, cromatura, stoccaggio ed assemblamento di tutti i prodotti di plastica. L'ampliamento attuato nell'anno 2007 ha reso possibile il potenziamento dei reparti di stampaggio e la messa in opera di un secondo impianto per la cromatura di componenti di plastica. Le soluzioni tecnologiche di nuova concezione qui adottate assicurano il massimo livello qualitativo dei trattamenti galvanici, mentre il rispetto dell'ambiente è garantito dal sistema di depurazione delle acque a circuito chiuso.
Nel 2019, l'ultimo investimento attuato per convertire un'impianto di cromatura della plastica al processo CROMO VI FREE, che significa privo di cromo esavalente. E questo sin dalla fase di mordenzatura, passaggio fondamentale per l'aderenza del rivestimento al prodotto.

Plastic Molding and Chrome Plating

The molding, chrome plating, storage and assembly departments of all plastic products operate in the Montichiari site.
In 2007 the plant expanded with the development of the injection molding division and the installation of a second state-of-the-art chromium plating plant for plastics.
The high technological solutions adopted therein ensure the highest quality level of the surface plating, while the respect of environment is guaranteed, thanks to a sophisticated closed circuit water treatment system.
In 2019, the latest investment made is the Trivalent Chromium plating for the metallization of plastic, free from hexavalent chromium. And this from the etching phase, a fundamental step for the adhesion of the coating to the product.

Rispetto per l'ambiente

Respect for the environment

La grande attenzione per il futuro, nostro e del pianeta, si concretizza in diversi modi: tutti i prodotti Bossini sono realizzati con materiali adeguati ai severi standard internazionali, grazie a tecnologie in grado di ridurre il consumo d'acqua, favorendo un reale risparmio energetico. Denominatore comune dei due stabilimenti, è il totale rispetto per l'ambiente.
Lo dimostra, anche, il recente investimento attuato per convertire un impianto di cromatura al processo CROMO VI FREE.

Bossini è certificata:
UNI EN ISO 9001/2015
ISO/TS 16949:2018
UNI EN ISO 14001-2015

The great attention to the future, ours and the planet, is realized in different ways: all Bossini products are made with materials suitable for the strict international standards, thanks to technologies capable of reducing water consumption, favoring real energy savings. The common denominator of the two facilities is total respect for the environment. This is also proven by the recent investment made to convert a chromium plating plant to the CROMO VI FREE process.

Water-releasing device for DREAM showerheads
All Bossini Dream ceiling-mounted showerheads have a built-in air suction duct in the water distribution chamber. This device, patented by Bossini, allows you to immediately discharge the residual water from the distribution chamber when you close the mixer, thereby minimizing water stagnation inside the showerhead. It also enables the mixing of air and water to give you a bracing water jet.

Colonne doccia con alimentazione da terra
Shower columns with ground inlet

Per la corretta installazione delle Colonna Doccia da esterno (con alimentazione da terra) dovete verificare preventivamente con i vostri progettisti/installatori dove volete sia orientato il getto della colonna, poiché la direzione di installazione della colonna è determinata dall'orientamento del connettore da incasso

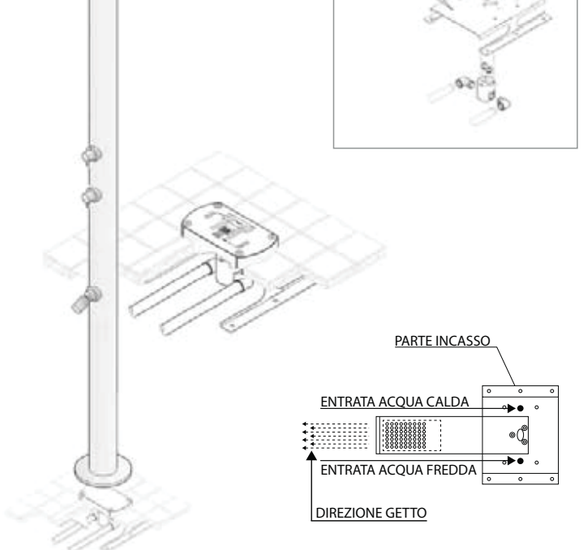

In order to install the outdoor shower column correctly (grounded in the earth), you must first check with your designers/installers which direction you want the water spray to come from. This is because the direction in which the shower column is facing at installation is determined by the direction of the fixing connector

Für die korrekte Installation der Duschsäule für Außenbereich (mit Bodenspeisung), muss vorher zusammen mit Ihren Planern/Installateuren überprüft werden, in welche Richtung des Wasserstrahls der Säule gerichtet werden soll, denn die Richtung für die Installation der Duschsäule wird dadurch bestimmt, wie das eingelassene Verbindungsteil ausgerichtet ist

Pour une bonne installation de la colonne douche d'extérieur (avec alimentation au sol), vous devez consulter avant vos concepteurs/installateurs au sujet de la direction d'orientation du jet de la colonne, car la direction d'installation de la colonne douche est déterminée par l'orientation du connecteur à encastrer

Para la correcta instalación de las columnas ducha para exterior (con alimentación a suelo) se debe verificar previamente con vuestros decoradores/instaladores donde se quiere esté orientado el chorro de la columna. Porque la dirección de instalación de la columna está determinada por la orientación del cuerpo empotrado

Для правильной установки Душевой Колонны (с подключением к встроенному водоснабжению) необходимо произвести предварительные замеры с Вашими проектировщиками/установщиками и определить в какую сторону будет ориентировано направление душевой струи, поскольку однажды установленная колонна, не может быть повернута из-за встроенного блока подключения к водоснабжению

Prima di collegare il prodotto, eseguire accuratamente lo spurgo dell'impianto, in modo da evitare che si depositi dello sporco nei rubinetti, danneggiando le cartucce. É consigliabile installare all'ingresso dell'impianto un apposito filtro.

Carry out the system purging before the product connection, to prevent mixers functional problems from impurity or remains into the cartridge. It is recommended to install the filter at the system's water intake.

Vor dem Anschluss des Produkts die Wasseranlage sorgsam spülen, damit sich keine Verschmutzungen in den Armaturen ablagen, die die Kartuschen beschädigen. Das Einbau eines Filters am Eingang der Anlage ist zu empfehlen.

Avant d'installer le produit purger à fond la plomberie afin d'éviter que les cartouches soient endommagées par toute impureté ou débris. Nous vous conseillons de placer à l'entrée de l'installation un filtre adapté.

Antes de conectar el producto, realizar en forma precisa la purga de la instalación, a fin de evitar que la suciedad se deposite en los grifos, dañando los cartuchos. Es aconsejable instalar, en la entrada de la instalación, un filtro adecuado.

Перед подключением продукта к водоснабжению, пропустить поток воды, таким образом, чтобы возможные засорения не попали в смеситель, повредив картриджи. Рекомендуем установить соответствующий фильтр на входе подключения водоснабжения.

TECHNICAL FEATURES

CARATTERISTICHE TECNICHE DEI TERMOSTATICI ALTA PORTATA
Tutti i termostatici ad alta portata hanno attacchi da 3/4"e possono essere installati in verticale (con entrata dell'acqua calda e fredda rivolte verso il basso) o in orizzontale (con entrate dell'acqua calda e fredda rivolte verso il lato destro o sinistro). Una delle caratteristiche principali del sistema termostatico alta portata di Bossini è che funziona in modo ottimale anche in condizioni di bassa pressione. Esistono due tipologie di termostatici: bassa pressione LP (Low Pressure) con rubinetti singoli, oppure alta pressione HP (High Pressure) con l'utilizzo del rubinetto/deviatore 2 vie.

TECHNICAL FEATURES OF HIGH FLOW THERMOSTATIC MIXERS
All the high flow thermostatic mixers have 3/4" connections and can be installed vertically (with the incoming hot and cold water directed downwards) or horizontally (with the incoming hot and cold water on the left or the right). One of the main features of the Bossini high flow thermostatic system is that it works well even in low pressure conditions. There are two types of thermostatic mixer: Low Pressure LP with single taps, or High Pressure HP by using a 2 way tap/diverter.

THECHNISCHE EIGENSCHAFTEN DER HOCHDURCHFLUSS THERMOSTAT-BATTERIE
Alle Hochdurchfluss Thermostat-Batterie von Bossini haben ¾" Anschlüsse und können sowohl senkrecht (mit Warm- und Kaltwassereingang nach unten) als auch waagerecht (mit Warm- und Kaltwassereingang nach rechts oder links) eingebaut werden. Ein der wichtigsten Vorteile der Hochdurchfluss Thermostat-Brausebatterie liegt darin, dass sie auch bei Niederdruck optimal arbeiten können. Zwei verschiedenen Typen sind erhältlich: LP (Low Pressure) Niederdruck Batterie mit Einzelstoppventilen oder HP (High Pressure) Hochdruck Batterie mit 2-Wege Umstellventilen.

CARACTÉRISTIQUES TECHNIQUES DES MITIGEURS THERMOSTATIQUES
Tous les mitigeurs thermostatiques haut débit sont dotés de raccords 3/4" et peuvent se monter en position verticale (l'entrée de l'eau chaude et froide dirigée vers le bas) ou en position horizontale (l'entrée de l'eau chaude et froide dirigée à droite ou à gauche). L'une des principales caractéristiques du système haut débit Bossini repose sur sa capacité de fonctionnement optimal aussi en conditions de basse pression. Il existe deux types de mitigeurs thermostatiques: basse pression LP (Low Pressure) dotés de robinets individuels ou haute pression HP (High Pressure) avec l'utilisation du robinet/inverseur à 2 voies.

CARACTERÍSTICAS TÉCNICAS DE LOS MEZCLADORES TERMOSTÁTICOS ALTA CAPACIDAD
Todas los mezcladores termostáticos alta capacidad tienen conexiones de ¾" y pueden ser instalados en vertical (con entrada del agua caliente y fría hacia abajo) o en horizontal (con entradas del agua caliente y fría hacia el lado derecho o izquierdo). Una de las características principales del sistema termostático alta capacidad de Bossini es que funciona óptima mente también en condiciones de baja presión. Existen dos tipos de mezcladores termostáticos: baja presión LP (Low Pressure) con grifos simples o bien alta presión HP (High Pressure) con grifos/desviadores de 2 vías.

ТЕХНИЧЕСКИЕ ХАРАКТЕРИСТИКИ СМЕСИТЕЛЕЙ ВЫСОКОЙ ПРОПУСКНОЙ СПОСОБНОСТИ
Все термостаты высокой пропускной способности имеют соединение на 3/4" и могут быть установлены вертикально (входы горячей и холодной воды повернуты к низу) или горизонтально (входы горячей и холодной воды повернуты в правую или левую сторону). Одна из основных особенностей системы термостатов высокой пропускной способности от Bossini – оптимальная функциональность, даже при низком давлении. Есть два вида термостатов: **низкого давления LP (Low Pressure)** с отдельными запорными кранами или высокого **давления HP (High Pressure)** с использованием крана/девиатора на 2 направления.

ATTENZIONE!

- In caso di pressione d'esercizio superiore ai 5 bar si consiglia l'utilizzo di riduttori di pressione
- If the operating pressure exceeds 5 bar, the use of pressure reducers is recommended
- Bei einem Betriebsdruck über 5 bar wird empfohlen, Druckminderer zu verwenden
- En cas de pression d'exercice superieure a 5 bar, on conseille d'utiliser des reducteurs de pression
- En caso de que la presión de trabajo supere los 5 bares, se recomienda utilizar un reductor de presión
- В СЛУЧАЯХ, КОГДА ДАВЛЕНИЕ ПОДАЧИ ПРЕВЫШАЕТ 5 БАР, РЕКОМЕНДУЕМ ИСПОЛЬЗОВАТЬ ОГРАНИЧИТЕЛИ ДАВЛЕНИЯ

Installation solutions 1-2-3-4-5 WAYS

Il corpo del miscelatore è dotato di meccanismo di chiusura, posizionato in corrispondenza delle valvole di non ritorno, che consente di interrompere l'erogazione dell'acqua per la manutenzione della cartuccia termostatica e/o del deviatore, senza ricorrere alla chiusura centralizzata dell'impianto.

The mixer body incorporates an on-off device, installed by the non-return valves, which allows to easily turn off the water whenever maintenance at the thermostatic or diverter cartridges is required, without need of closing the main supply.

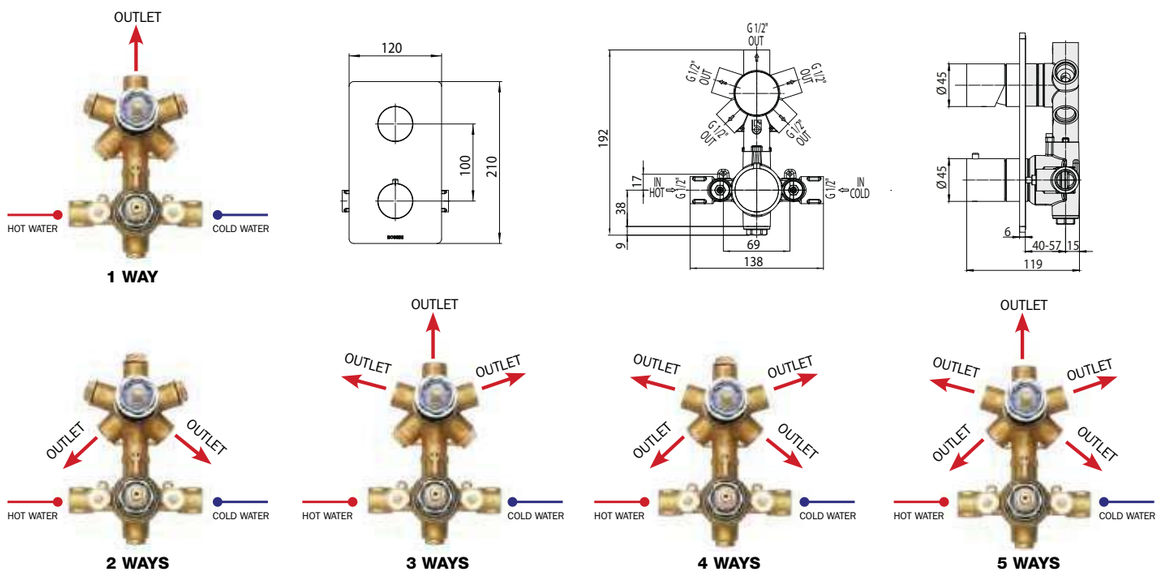

Le corps du mitigeur est équipé d'un système de fermeture, positionné au même endroit que les clapets anti-retour, qui permet d'interrompre l'arrivée d'eau pour la manutention des cartouches thermostatiques ou des inverseurs.

El cuerpo empotrado incorpora un dispositivo de cierre, posicionado sobre las válvulas antirretorno, que permite la interrupción de alimentación de agua para el fácil mantenimiento / sustitución del cartucho termostático o desviador.

Der Thermostatkörper integriert ein Absperrsystem bei der Rückflussverhinderung, um die Kartuschenpflege und Ersatz einfach zu machen.

Корпус смесителя оснащен механизмом закрытия, расположенным в соответствии с невозвратными клапанами, который позволяет перекрывать подачу воды при необходимости ухода или обслуживания за термостатическим картриджем или девиатором, не прибегая к централизованному отключению.

SISTEMA FITAIR - FITAIR SYSTEM

Miscelata con l'aria, l'acqua fuoriesce creando un effetto morbido o vigoroso a seconda del tipo di getto, ottenendo un risparmio del 50% rispetto ad una doccia tradizionale.

Mixed with air, the water released becomes softer or harder, depending on the spray mode and the water consumption is easily reduced up to 50%, compared with a traditional handshower.

Durch die Verwirbelung mit Luft verwandelt sich der Brausestrahl in weichen Regen. Gleichzeitig sorgt die Fitair-Technologie für eine Wassersparersparnis bis zu 50% gegenüber herkömmlichen Brausearten.

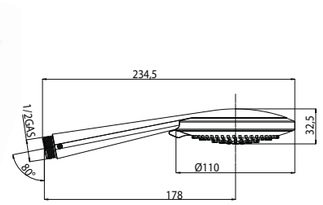

Mixée avec l'air, l'eau procure un effet doux ou vigoureux selon le jet, et génère une économie d'eau de 50% en comparaison avec une douchette traditionnelle.

Mezclada con el aire, el agua emerge creando un efecto suave o vigoroso según el tipo de chorro, obteniendo un ahorro del 50% respecto a una ducha tradicional.

При смешивании с воздухом выделяемая вода становится мягче или жестче, в зависимости от режима распыления, и потребление воды легко снижается до 50% по сравнению с традиционным ручным душем.

CONDIZIONI GENERALI DI VENDITA

Le presenti condizioni generali disciplinano tutti gli attuali e futuri contratti fra le parti, salvo eventuali deroghe specificatamente concordate per iscritto. Eventuali condizioni generali del compratore non troveranno applicazione nei rapporti futuri fra le parti se non espressamente accettate per iscritto dalla ditta Bossini spa (in seguito "venditore").

1.Formazione del contratto

L'invio da parte del compratore di un ordine al venditore comporta l'applicazione al contratto di vendita delle presenti condizioni generali. Il venditore si riserva il diritto di accettare o rifiutare l'ordine ricevuto. Le offerte fatte da agenti, rappresentanti ed ausiliari di commercio del venditore non sono per lui impegnative fino a quando non siano confermate dal venditore stesso.

2.Prezzi

Ai prezzi indicati nel presente listino deve essere applicata l'I.V.A. secondo l'aliquota in vigore al momento della fatturazione. Il venditore si riserva di modificare i prezzi, o di variare il listino prezzi senza alcun preavviso.

3.Resa della merce

Salvo patto contrario, la fornitura dei prodotti si intende Franco Fabbrica del venditore: trasporto ed assicurazione sono pertanto a carico del compratore e ciò anche quando sia convenuto che la spedizione o parte di essa venga curata dal venditore. In tal caso quest'ultimo agirà come mandatario del compratore, essendo inteso che il trasporto verrà effettuato a rischio del compratore. I rischi relativi alla fornitura passano al compratore al momento in cui i prodotti lasciano lo stabilimento del venditore.

4.Termini di consegna

I termini di consegna si intendono approssimativi a favore del venditore e comunque con un congruo margine di tolleranza. E' esclusa qualsiasi responsabilità del venditore per danni derivanti da anticipata, ritardata o mancata consegna, totale o parziale. Il compratore è sempre tenuto a prendere in consegna i prodotti, anche in caso di consegne parziali e di consegne anticipate o posticipate rispetto a quando richiesto. Il termine di consegna verrà prorogato di un periodo pari a quello della durata dell'impedimento al verificarsi di cause di forza maggiore. In nessun caso, a causa del verificarsi di tali circostanze, il compratore potrà esigere compensi o indennizzi di qualsiasi natura.

5.Garanzia

Il venditore garantisce la conformità dei prodotti forniti; con il termine di conformità dei prodotti si intende che essi corrispondono per qualità, quantità e tipo a quanto stabilito nel contratto e che sono esenti da vizi che potrebbero renderli non idonei all'uso cui sono destinati. La garanzia per vizi è limitata ai soli difetti dei prodotti conseguenti a difetti di progettazione, di materiale o di costruzione riconducibili al venditore, e non si applica nel caso in cui il compratore non provi di aver effettuato una corretta conservazione dei prodotti e di non averli modificati senza il consenso del venditore. Il venditore non risponde dei difetti di conformità dei prodotti dovuti all'usura normale di quelle parti che, per loro natura sono soggette a usura rapida e continua. La garanzia non copre danni causati da installazione e/o utilizzo impropri, errata concezione dell'impianto in cui sono installati/collegati i prodotti, deposito di calcare od impurità, impiego di prodotti di pulizia e manutenzione diversi da quelli specificatamente indicati nelle istruzioni di montaggio del venditore.
Qualora il compratore destini i prodotti alla rivendita resta inteso che il medesimo sarà responsabile verso i propri clienti per eventuali richieste di garanzia, con espressa rinuncia del compratore al diritto di regresso nei confronti del venditore per quanto prestato al consumatore privato, salvo diverso accordo scritto tra compratore e venditore.

6.Reclami

Il compratore è tenuto a verificare la conformità dei prodotti e l'assenza di vizi. I reclami relativi a non conformità palesi dei prodotti forniti dovranno essere effettuati, a pena di decadenza, entro e non oltre otto (8) giorni dal ricevimento della merce a destino. I vizi, difetti o non conformità occulti devono essere denunciati immediatamente alla loro scoperta e comunque, a pena di decadenza, entro e non oltre la durata della garanzia. Tutti i reclami devono essere effettuati mediante lettera raccomandata indirizzata al venditore e devono indicare dettagliatamente i vizi e le non conformità contestate. La garanzia ha una durata di ventiquattro (24) mesi dalla data di consegna al compratore, eccezion fatta per tutti i prodotti la cui finitura non sia in color cromo dove la durata della garanzia è di dodici (12) mesi sempre a decorrere dalla data di consegna al compratore.

7.Rimedi

In caso di prodotti non conformi, e dopo aver ricevuto un rapporto dettagliato dal compratore, il venditore potrà, a sua insindacabile scelta: a) fornire gratuitamente Franco Fabbrica al compratore prodotti dello stesso genere e quantità di quelli risultanti difettosi o non conformi a quanto pattuito, dopo averne ottenuto la resa per la verifica a spese del compratore. L'eventuale sostituzione effettuata prontamente dal venditore non può essere ritenuta un implicito riconoscimento dei vizi contestati: detto riconoscimento dovrà essere sempre esplicito e con-seguente al controllo del venditore sui prodotti contestati. Qualora il venditore, in sede di verifica, non riconosca viziati i prodotti, provvederà alla fatturazione di quelli inviati in sostituzione; oppure b) emettere una nota di accredito a favore del compratore per un importo corrispondente al valore dei prodotti difettosi. In entrambi i casi il venditore ha diritto alla restituzione dei prodotti difettosi che diventano di sua proprietà.
La presente garanzia è sostitutiva della garanzia legale per vizi e conformità ed esclude ogni altro rimedio o pretesa, inclusi eventuali costi di manodopera per smontaggio e/o reinstallazione, a favore del compratore.

8.Limitazione di responsabilità del venditore

Salvo dolo o colpa grave del venditore l'eventuale risarcimento di qualsiasi danno al compratore non potrà comunque superare il prezzo di fattura dei prodotti contestati.

9.Pagamento

I pagamenti ed ogni altra somma dovuta a qualsiasi titolo al venditore si intendono netti al suo domicilio. Qualsiasi ritardo o irregolarità nel pagamento dà al venditore il diritto di sospendere le forniture o di risolvere contratti in corso, anche non relativi ai pagamenti in questione, nonché il diritto al risarcimento degli eventuali danni. Il venditore ha altresì il diritto a decorrere dalla scadenza del paga¬mento, agli interessi moratori nella misura stabilita in Italia dall'art. 5 del Decreto Legislativo 9 ottobre 2002, n. 231. Il ritardo nei pagamenti dà altresì al venditore il diritto di escludere la garanzia per tutto il periodo durante il quale il ritardo perdura.

10.Riserva di proprietà

I prodotti consegnati restano di proprietà del venditore sino al momento del completo pagamento del prezzo.

11.Legge applicabile e foro competente

Tutti i contratti disciplinati dalle presenti condizioni generali sono regolati dalla legge italiana. Per ogni controversia relativa o comunque collegata ai contratti cui si applicano le presenti condizioni generali è esclusivamente competente il foro del venditore; quest'ultimo avrà tuttavia facoltà di agire presso il foro del compratore.

GENERAL CONDITIONS OF SALE

These general conditions regulate all present and future sales contracts between the parties, subject to any exceptions specifically agreed upon in writing. Any general conditions of the purchaser will not apply to future contractual relations between the parties unless expressly accepted in writing by Bossini spa (below "the seller").

1.Formation of the Contract

The purchaser placing the order fully accepts the application of these general terms to the Contract for sale. Seller reserves the right to accept or refuse it. Offers made by Agents, Representatives or auxiliaries of the seller do not bind him until they are confirmed by the seller itself.

2.Prices

The prices indicated in this price list do not include V.A.T. or any other tax whatsoever. Seller may modify the prices / price list without prior notice.

3.Surrender of the goods

Unless agreed to the contrary, the supply of the products is intended ex-factory: transport and insurance are therefore at the charge of the purchaser, this also when it is decided that the delivery or part of it will be taken care of by the seller, in which case the latter will act as the purchaser's agent, it being understood that the transport will be carried out at the expense and risk of the purchaser. The risks relative to the supply pass to the purchaser, at the latest at the time in which the products leave the seller's plant.

4.Delivery terms

The delivery limits are agreed approximately in favor of the seller and not binding for him. Any liability of the seller is excluded for dam¬age deriving from anticipated, delayed or missed delivery, total or partial. The purchaser is always held to take delivery of the products, even in the case of partial deliveries and even when the products are consigned before the established delivery date or successively to that date. The seller shall not be deemed to be in breach of this agreement, or otherwise be liable to the purchaser, by reason of any delay in delivery, to the extent that the delay is due to any Force Majeure, and the time for performance of delivery shall be extended accordingly.

5.Guarantee

The seller guarantees the compliance of the products supplied; by the term compliance of the products it is meant that they corre¬spond in quality, quantity and type to what was agreed in the contract and that they are without defects that could render them unfit for the use to which they are intended to be put. The guarantee against defects is limited only to product defects due to defects in planning, materials or construction that can be attributed to the seller, and does not apply in the case where the purchaser is unable to prove a correct preservation of the product and where he has modified them without the agreement of the seller. The seller is not liable for defects in product compliance due to the normal wear of those parts which, by nature, are subject to rapid and continuous wear and tear.
The warranty does not cover damages caused by improper installation and/or use, incorrect design of the system in which the products are installed/connected, scale or impurity deposits, use of cleaning products and maintenance different than those specifically indicated in the assembly instructions of the seller. If the product is intended to be resold, it is understood that the buyer will be liable to its customers for any warranty claims, with express renunciation of the buyer to the right of recourse against the seller for what is given to the private consumer, unless otherwise agreed in writing between buyer and seller.

6.Claims

The purchaser is required to control the compliance of the products and the absence of flaws. Claims relevant to evident non-conformities of the goods must be made, on pain of forfeiture, within and not later than 8 days from the goods arrival at their place of destination. Hidden flaws, defect or non-compliances must be reported immediately after the discovery and in any event, on pain of forfeiture, not later than the duration of the guarantee . Claims must be made by registered letter, addressed to the seller and must describe in detail the flaws or disputed non-compliances. The guarantee is for a limited period of twenty-four (24) months from delivery date to the buyer, except for all products not in chrome finishing for which the guarantee is for a limited period of twelve (12) months always from delivery date to the buyer.

7.Remedies

In case of faulty products and following to a report by the purchaser, the seller may at his discretion: a) supply ex-factory to the purchaser products of the same kind and quantity as those that proved not in compliance, on receiving returns for checking at buyer's expense. Any replacement carried out promptly by the seller cannot be considered as implicit recognition of defects claimed: said recognition must always be explicit and following control by seller on goods challenged; should the seller, on controlling, find the goods in compliance, he will invoice for those sent in replacement; or b) issue to the purchaser a credit note in the amount equal to the value of the defec¬tive products. In both cases the purchaser shall return the faulty products to the seller. This warranty is a substitute for the legal guarantee for defects and conformity and excludes any other relief or claim, including any labor costs for dismantling and/or reinstallation, in favor of the buyer.

8.Limit of the seller's liability

Except in the case of fraud or gross negligence on the seller's part, compensation of any damage to the purchaser will not, in any event, be greater than invoice price of the disputed products.

9.Payments

The payment and every other sum due to the seller, are understood as net at the registered office of the seller. Any delay or irregular¬ity in the payment gives the seller the right to suspend the supply or to cancel the contract in course, even if they are not relevant to the payments in question, as well as the right to compensation for eventual damages. The seller has also the right - starting from the payment deadline - to interests for delay as per art. 5 of Italian Legislative Decree no. 231 of 9/10/2002. The delays of payment likewise give the seller the right to exclusion from guarantee, for the whole period that the delay may persist.

10.Retention of Title

The delivered products remain the seller's property until the moment of the complete payment of the price.

11.Applicable Low and Competent Law-Court

All Contracts ruled by these general conditions are submitted to Italian Law. For any controversy relative to, or connected to the contractual products to which this general conditions apply, the seller's Law-Court has the exclusive competence; the latter, however, will have the opportunity to act also in the purchaser's Law-Court.

a) dem Käufer frei ab Werk Produkte derselben Art und Menge wie jene, die sich als fehlerhaft oder nicht vertragskonform erwiesen haben, liefern, nachdem er zu Prüfungszwecken auf eigene Kosten eine Lieferung derselben erhalten hat. Der gegebenenfalls vom Verkäufer umge¬hend geleistete Ersatz impliziert keine Anerkennung der beanstandeten Mängel: diese Anerkennung muss immer ausdrücklich und im Anschluss an die vom Verkäufer an den beanstandeten Produkten durchgeführten Kontrollen erfolgen. Falls der Verkäufer bei der Kontrolle keine Mängel feststellt, wird er die ersatzweise versandte Ware in Rechnung stellen; oder b) eine Gutschrift über einen Betrag im Wert der fehlerhaften Produkte zugunsten des Käufers ausstellen.
In beiden Fällen hat der Verkäufer ein Recht auf Rückgabe der fehlerhaften Produkte, die dann in sein Eigentum übergehen.
Diese Gewährleistung ist ein Ersatz für die gesetzliche Garantie für Mängel und Konformität und schließt jede andere zugunsten des Käufers Lösung oder Anspruch, einschließlich aller Arbeitskosten für Demontage und/oder Neuinstallation, aus.

8.Haftungsbegrenzung des Verkäufers
Ein an den Käufer zu entrichtender Schadensersatz übersteigt keinesfalls die Rechnungssumme für die beanstandeten Waren, außer wenn der Verkäufer vorsätzlich oder grob fahrlässig gehandelt hat.

Ladite reconnaissance devra toujours être explicite et conséquente au contrôle du vendeur sur les produits contestés. Dans le cas où le vendeur, lors de la vérification, ne reconnaîtrait pas que les produits sont défectueux ou présentent des vices, il facturera ceux livrés de remplacement ; ou b) émettre une nota de crédit en faveur de l’acquéreur pour un montant correspondant à la valeur des produits défectueux. Dans les deux cas, le vendeur a droit à la restitution des produits défectueux et il en devient propriétaire.
Cette garantie est un substitut à la garantie légale pour les défauts et les conformités et exclut toutes autres réparations ou prétentions en faveur de l’acquéreur, y compris les frais de main-d’œuvre pour le démontage et/ou la réinstallation.

8.Limitation de responsabilité du vendeur
Sous réserve de dol ou de faute grave du vendeur, l’éventuelle réparation de quelque dommage que ce soit à l’acquéreur ne pourra en aucun cas excéder le prix de facture des produits contestés.

9.Paiement
Les paiements et toute autre somme due à quelque titre que ce soit au vendeur sont considérées nets à son domicile. Tout retard ou irrégularité dans le paiement donne au vendeur le droit de suspendre les fournitures ou de résilier les contrats en cours, même non relatifs aux paiements en question, ainsi que le droit à la réparation des dommages, le cas échéant. Le vendeur a également le droit à compter de la date d’échéance du paiement, aux intérêts de retard dans la mesure établie en Italie par l’art. 5 du décret législatif du 9 octobre 2002, no 231. Le retard dans les paiements donne aussi au vendeur le droit d’exclure la garantie pendant toute la période durant laquelle le retard dure.

10.Réserve de propriété
Le vendeur reste propriétaire des produits livrés jusqu’au moment du paiement intégral du prix.

11.Loi applicable et tribunal compétent
Tous les contrats réglementés par les présentes conditions générales sont régis par les lois italiennes. Seul le tribunal du domicile du vendeur est compétent pour entendre tout litige relatif ou quoi qu’il en soit lié aux contrats auxquels les présentes conditions générales s’appliquent. Toutefois, le vendeur aura la faculté d’agir près le tribunal de l’acquéreur.

CONDICIONES GENERALES DE VENTA

Las presentes condiciones generales reglamentan todos los contratos actuales y futuros entre las partes, salvo eventuales derogaciones específicamente acordadas por escrito. Las posibles condiciones generales aportadas por el comprador no encontrarán aplicación alguna en las relaciones futuras entre las partes si no quedan expresamente aceptadas por escrito por la firma Bossini spa (debajo “el vendedor”).

1.Formación del contrato

El envío de una orden de compra al vendedor por parte del comprador implica la aplicación de las presentes condiciones generales al contrato de venta. El vendedor se reserva el derecho de aceptar o rechazar la orden recibida. Las ofertas efectuadas por agentes, representantes y auxiliares de comercio no comprometen al vendedor hasta que no sean confirmadas por él mismo.

2.Precios

A los precios indicados en la presente lista se debe aplicar el IVA según la alícuota vigente al momento de la facturación. El vendedor se reserva el derecho de modificar los precios o variar la lista de precios sin ningún preaviso.

3.Devolución de mercadería

Salvo acuerdo contrario, la entrega de los productos se realizará Franco Fabrica del vendedor: por consiguiente, el transporte y el seguro son a cargo del comprador y esto incluye aquellos convenios de expedición parcial o total que queden a cargo del vend¬edor, en cuyo caso este último actuará como mandatario del comprador, acordando que el transporte será efectuado a riesgo del comprador. Los riesgos relativos a la entrega pasan al comprador cuando los productos dejan el establecimiento del vendedor.

4.Plazos de entrega

Los plazos de entrega se entienden aproximativos a favor del vendedor y, en cualquier caso, con un margen de tolerancia conveni¬ente. El vendedor queda excluido de cualquier responsabilidad por daños derivados de la entrega total o parcial anticipada, demo¬rada o fallida. El comprador está obligado a tomar en consignación los productos aún cuando se entreguen parcialmente o cuando sean entregados antes o después de la fecha establecida. Cuando se verifiquen causas de fuerza mayor, el plazo de entrega será prorrogado por un período igual al tiempo que dure el impedimento. En ningún caso, al verificarse estas circunstancias, el comprador podrá exigir retribuciones o indemnizaciones de ninguna naturaleza.

5.Garantía

El vendedor garantiza la conformidad de los productos suministrados; por “conformidad de los productos” se entiende que estos corresponden en calidad, cantidad y tipo a los establecido en el contrato y que carecen de defectos de fabricación que podrían hac¬erlos no idóneos para el uso al cual son destinados. La garantía por vicios queda limitada a los defectos de los productos entregados con fallas de diseño, material o fabricación atribuibles al vendedor y no se aplica en aquellos casos en que el comprador no pueda probar que ha efectuado una correcta conservación de los mismos y que no los ha modificado sin el consentimiento del vendedor. El vendedor no responde por defectos de conformidad de los productos debidos al desgaste normal de aquellas partes que, por su naturaleza, son susceptibles a desgaste rápido y continuo.
La garantía no cubre los daños causados por instalación o uso incorrectos, un diseño incorrecto de la instalción donde se instalan o conectan los productos, incrustaciones de caliza o depósitos de impurezas, uso de productos de limpieza y mantenimiento diferentes a los específicamente indicados en las instrucciones de montaje de el vendedor. Si el producto está destinado a ser revendido, se entiende que el comprador será responsable ante sus clientes por cualquier reclamo de garantía. El comprador renuncia expresamente al derecho de recurso contra el vendedor por lo que se le da al consumidor privado, a menos que se acuerde lo contrario por escrito entre el comprador y el vendedor.

6.Reclamos

El comprador está obligado a verificar la conformidad de los productos y la ausencia de defectos. Los reclamos relativos a nonconformidades patentes de los productos entregados deberán ser efectuados, so pena de caducidad, dentro y no más allá de los ocho (8) días sucesivos a la recepción de las mercaderías en su lugar de destino. Los vicios ocultos, defectos o la falta de conformidad deberán ser denunciados inmediatamente al momento de descubrirlos y, sea como sea, so pena de caducidad, dentro y no más allá de la duración de la garantía. Todos los reclamos deben ser efectuados mediante carta certificada dirigida al vendedor y deben indicar detalladamente los vicios y las no conformidades verificadas. La garantía tiene una duración de veinticuatro (24) meses a partir de la fecha de entrega al comprador, excepto por todos los productos que no son en acabado cromado para los cuales la garantía tiene una duración de doce (12) meses siempre a partir de la fecha de entrega al comprador.

7.Soluciones

En caso de productos no conformes y después de haber recibido un informe detallado por parte del comprador, el vendedor podrá a su incuestionable elección: a) suministrar gratuitamente Franco Fábrica al comprador productos de igual género y cantidad de los que resultaron defectuosos o no conformes según lo acordado, luego de haber obtenido la devolución para su verificación a cargo del comprador. La eventual sustitución efectuada rápidamente por parte del vendedor no debe ser entendida como un reconocimiento implícito de los defectos denunciados: dicho reconocimiento deberá ser siempre explícito y consecuente con el control del vendedor sobre los productos impugnados. En caso de que, en la sede de verificación, el vendedor no reconozca como defectuosos los productos, procederá a la facturación de aquellos enviados en sustitución; o bien b) emitir una nota de crédito a favor del comprador por un importe correspondiente al valor de los productos defectuosos. En ambos casos el vendedor tiene derecho a que los productos defectuosos le sean restituidos, volviendo a ser de su propiedad. Esta garantía es un sustituto de la garantía legal por defectos y conformidades y excluye cualquier otra solución o pretension a favor del comprador, incluidos los costos de mano de obra para el desmantelamiento y/o la reinstalación.

8.Limitaciones de responsabilidad del vendedor

Salvo dolo o culpa grave del vendedor, la eventual indemnización de cualquier daño al comprador no podrá superar el precio de factura de los productos impugnados.

9.Pago

Los pagos y cualquier otra suma debida a otros conceptos al vendedor se entienden como pago neto a su domicilio. Cualquier demora o irregularidad en el pago confiere al vendedor el derecho de suspender las entregas o rescindir contratos en curso, incluso aquellos no vinculados a los pagos en cuestión, así como el derecho a una indemnización por los eventuales daños. El vendedor también tiene derecho a devengar del plazo de vencimiento del pago los intereses moratorios proporcionales según lo establecido en Italia por el art. 5 del Decreto Legislativo del 9 de octubre de 2002, n. 231. Asimismo, la demora en los pagos autoriza al vendedor a retirar la garantía durante todo el período que perdure la demora.

10.Reserva de propiedad

Los productos entregados continúan siendo propiedad del vendedor hasta que se complete el pago total del precio de compra.

11.Ley aplicable y foro competente

Todos los contratos regidos por las presentes condiciones generales son regulados por la ley italiana.
Ante cualquier controversia relativa o vinculada a los contratos a los que se aplican las presentes condiciones generales es exclu¬sivamente competente el foro del vendedor; no obstante, este último tendrá la facultad de actuar en el foro del comprador.

ОБЩИЕ УСЛОВИЯ ПРОДАЖИ

Настоящие условия регулируют все актуальные и будущие контракты между двух сторон, за исключением возможных отступлений согласованных письменно. Возможное внесение условий со стороны покупателя не будет рассмотрено в будущих отношениях сторон, если оно не было принято и письменно подтверждено со стороны компании Bossini spa.

1.Основание для контракта

Отправка заказа со стороны покупателя продавцу является основанием для контракта с настоящими условиями продажи. Продавец оставляет за собой право принять или отказаться от полученного заказа. Коммерческие предложения, исходящие от агентов, представителей и посредников продавца не имеют обязательств до тех пор, пока они не подтверждены самим продавцом.

2.Цены

К ценам, представленным в настоящем каталоге должен быть добавлен НДС исходя из аликвотной части, действующей на момент оформления счета-фактуры. Продавец оставляет за собой право изменять или варьировать цены без каких-либо предупреждений.

3.Отгрузка товара

За исключением противоположных соглашений, отгрузка продукции происходит с предприятия продавца: транспортировка и страхование груза осуществляется за счет покупателя, также как и в тех случаях договоренности, когда отправка или какая-то ее часть будет проходить под контролем продавца. В таком случае, продавец выступает в качестве поверенного покупателя, при полной осведомленности, что транспортировка и возможные риски лежат на покупателе.

4.Сроки поставки

Сроки поставки назначаются приблизительные с предпочтением для продавца и с допустимым запасом на обстоятельства. Продавец исключает любую ответственность за ущерб, возникший в случае преждевременной, запоздалой или недостаточной поставки, общей или частичной. Покупатель будет всегда осведомлен о получении товара, даже в случае поставки частями, а также в случае преждевременной или запоздалой поставки относительно запрошенного срока. Срок поставки будет продлен на период равнозначный продолжительности задержки происходящей по причине форс-мажорных обстоятельств. Ни в каком случае, при обнаружении таких обстоятельств, покупатель не может требовать компенсации или возмещения убытков любого происхождения.

5.Гарантия

Продавец гарантирует соответствие поставляемой продукции, где под соответствием подразумевается, что продукция отвечает качеству, количеству и типу насколько это определяет контракт, и что она лишена недостатков, по которым ее можно было бы квалифицировать, как непригодную по своему назначению. Гарантия на недостатки товара ограничена дефектами, которые вызваны по причине недостатка проектирования, материала или изготовления, и доведены до продавца, и не распространяется на тот случай, при котором покупатель не пытается осуществить надлежащее содержание изделия, и изделие было модифицировано без предварительного разрешения продавца. Продавец не отвечает за дефекты, возникшие вследствие естественной эксплуатации тех частей, которые по своему назначению предрасположены к быстрому и продолжительному использованию.

6.Рекламации

Покупатель обязан проверить соответствие товара и отсутствие недостатков. Возможные претензии о несоответствии поставленной продукции должны быть представлены до истечения срока, в течение и не позднее пятнадцати дней с момента прибытия товара. Недостатки, несоответствия или скрытые дефекты должны быть немедленно заявлены по мере их обнаружения и до истечения срока, в течение и не позднее шести месяцев от даты поставки. Все рекламации должны быть отправлены заказным письмом на адрес продавца и должны иметь подробное описание дефекта или обнаруженного несоответствия. Гарантия действует в течение двадцати четырех (24) месяцев с даты поставки покупателю, за исключением всех продуктов, отделка которых не хромового цвета, где срок гарантии составляет двенадцать (12) месяцев, начиная с даты поставки покупателю.

7.Разрешения

В случае несоответствия продукции и после получения детализированного отчета от покупателя, продавец принимает решение на свой выбор: а) бесплатно поставить на свой склад для покупателя такую продукцию и количество, какая была признана, как бракованная или несоответствующая, по результатам проверки. Возможная замена без промедления, осуществленная продавцом, не может рассматриваться, как безоговорочное признание заявленных дефектов: данное признание не должно быть двусмысленным и должна быть подтверждена контролем продавца на заявленную продукцию. Если продавец, после проведения проверки, не признает продукцию недоброкачественной, она будет внесена в счет, как отправленная на замену или б) будет выставлен аккредитив в пользу покупателя на сумму соответствующую общей сумме товара с дефектом. В обоих случаях продавец имеет право на возвращение товара с дефектом, который становится его собственностью.

8.Пределы ответственности продавца

За исключением умысла или тяжелой вины продавца, возможное возмещение вреда покупателю не может превышать сумму счета фактуры предъявленных товаров.

9.Оплата

Оплаты, также как и другие платежи, надлежащие продавцу, понимаются, как нетто и отправляются по местонахождению продавца. Любая задержка или неточность оплаты дает продавцу право приостановить поставки или расторгнуть контракт по причинам не связанным с оплатой, а также право на возмещение возможного вреда. Также продавец имеет право, начиная со срока окончания платежа, начислить проценты на остаток задолженности в той мере, какая установлена в Италии согласно п. 5 Законодательного Декрета от 9 октября 2002, N° 231. Задержка в платежах дает продавцу право на исключение гарантийных обязательств на весь период, в течение которого длится задержка

10.Право собственности

Продукция, подготовленная к отгрузке, остается собственностью продавца до момента полной оплаты ее цены.

11.Применимое законодательство и компетенция суда

Все контрактные обязательства представленные в настоящих общих условиях регулируются итальянским законодательством. Каждый спорный вопрос относительный или каким-либо образом связанный с настоящими условиями, находится исключительно в компетенции суда продавца; этот последний имеет возможность взаимодействовать и с судом покупателя.
