Marco Piva

collezione Fluid

Definisce il suo linguaggio emozionante, fluido e funzionale, firmando le proprie realizzazioni legate all'architettura, al product e all'interior design. Lo sforzo nella ricerca materica e tecnologica, il valore della differenziazione e l'innovazione progettuale sfociano nella fondazione dello Studiodada Associati, la cui produzione diventa una delle più rappresentative del periodo del Radical Design. Negli anni '80 apre lo Studio Marco Piva, la cui attività spazia dai grandi progetti architettonici alla progettazione d'interni, fino al disegno industriale. Viaggiatore prima ancora che progettista, studia e crea soluzioni progettuali intrise di libertà stilistica, gli oggetti si caricano di emozionalità e nuova simbologia, i colori contrastano ogni intellettualismo e rigidità.

He defines his language as fetching, fluid and functional, authoring designs in architecture, product design and interior decoration. The attentive research on materials and technology, the eclectic approach and innovative design has resulted in the foundation of Studiodada Associati, whose creations are among the most representative of the Radical Design period. In the Eighties he opened Studio Marco Piva, working in a wide range of fields, from large architecture projects to interiors to industrial design. Piva sees himself first and foremost as a traveller and only secondarily as a designer, and researches and designs solutions that burst forth with stylistic freedom, emotional intensity and new symbolologies, in colours that belie all intellectualism and rigidity.

Lavabi. Appartengono in maniera intrinseca al mondo dell'acqua e ad essa si ispirano donando plasticità alla materia ceramica rendendola scultorea. La collezione si sviluppa in due tipologie di lavabi freestanding con possibilità di installazione contro il muro o centro stanza, due differenti misure da appoggio e sospesi.

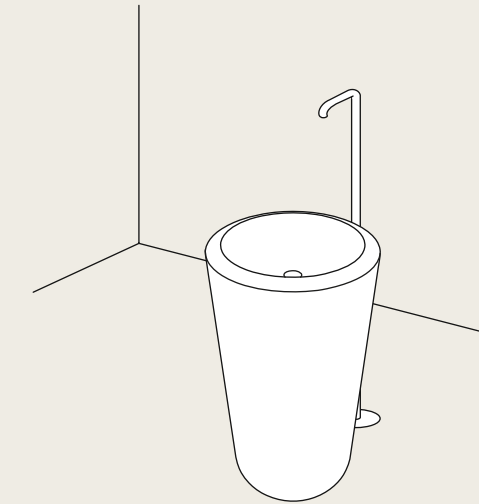

Washbasins. The world of water is the natural realm of washbasins; these take inspiration from water to render ceramic sculptural and shapely. The collection includes two types of freestanding washbasins to be mounted against the wall or in the room center in two different countertop or suspended sizes.

I sanitari. Le sinuosità e la morbidezza, che caratterizzano il design dei sanitari Fluid, coerente in entrambe le soluzioni a terra e sospesi, lo rendono un prodotto versatile, particolarmente adatto per rispondere alle esigenze del mondo contract, dell'accoglienza, così come dell'ambiente domestico.

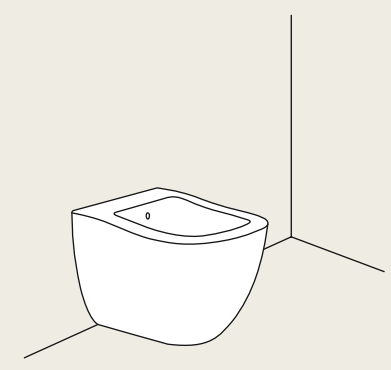

Sanitary-ware. The sinuous and soft shapes that distinguish the design of the Fluid bathroom range, coherent in both solutions, both the floor model and the wall mounted one, render it a versatile product that is especially suited to meet the requirement of the contract and hoteling sector, as well as those of the home.
