# I CLASSICI

Espressione della cultura, folklore, costumi, colori e immagini della Sicilia, la collezione i Classici dello Studio Le Nid è specchio e sintesi dei numerosi popoli che hanno segnato la storia di questa terra. Attraverso l'uso del cotto manuale la collezione "I Classici" propone maioliche con forme e misure articolate per pavimentazione e rivestimento dal caldo sapore mediterraneo che impreziosiscono gli spazi esterni e scaldano gli ambienti interni. Quadrati, esagoni, triangoli, stelle, croci e fiori si combinano dando vita a composizioni diverse ed inaspettate.

Sebbene "fatto a mano" continui ad essere la parola d'ordine del processo di lavorazione e produzione artistica firmata Studio Le Nid, l'utilizzo di innovativi strumenti tecnologici consente una produzione sempre più green che, oltre a rispettare l'ambiente, conserva rigorosamente la tradizione. La selezione dei materiali, infatti, il disegno, la stesura dei colori, sono tutte procedure realizzate con tecniche tradizionali. Ogni singolo prodotto viene considerato un pezzo unico con sue caratteristiche specifiche e piccole irregolarità che lo contraddistinguono e ne confermano la fattura artigianale.

## "I Classici" Collection

"I Classici" collection by Studio Le Nid is deeply rooted in the culture, folklore, customs, colours and images of Sicily and it is the reflection and the synthesis of several populations that marked the history of this land. Through the use of handmade terracotta "I Classici" collection proposes a wide variety of tiles in models and dimensions for outdoor paving and interior laying giving a warm Mediterranean taste. Squares, hexagons, triangles, stars, crosses and flowers combine together to give rise to different and unexpected compositions. "Hand made" is the key word in the manufacturing process characterizing the artistic production signed Studio Le Nid, in fact, despite the use of innovative technological devices that allows a production increasingly green aiming at respecting the environment, the choice of the materials, the designs and the spreading of the colours are all processes carried out following scrupulously traditional techniques. Each product becomes an unequalled item considering its peculiar properties and the small imperfections that are characteristic of the artisan workmanship.
