CREATIVE THINKING

VOL 3

Inkiostro Bianco è un'azienda specializzata nella produzione di superfici continue e decorativi artistici e personalizzabili.

Un marchio, un progetto ambizioso, un laboratorio di idee applicate alla progettualità e alla produzione di grafiche decorative che ha come obiettivo la reinterpretazione del rivestimento interno per ogni superficie. Nell'offerta di Inkiostro Bianco il mondo dell'arte pittorica e della grafica digitale convergono in creazioni originali dalla forte personalità. Il risultato sono tele emozionali che trasformano le superfici in complementi di design d'avanguardia.

La produzione è interna in tutta le sue fasi: dalla realizzazione delle grafiche, ideate da un network di designers e artisti, alla stampa delle carte con avanzate tecnologie digitali. Tutti progetti caratterizzati da una forte possibilità di customizzazione.

Inkiostro Bianco is a company specialised in the production of continuous and decorative artistic and customisable surfaces.

It is a brand, an ambitious project and a workshop of ideas applied to the design and production of decorative graphics, whose goal is to reinterpret the interior wall coverings for all surfaces. Pictorial art and digital graphics converge in the Inkiostro Bianco range to form original creations with a strong personality. This results in exciting canvases that transform surfaces into avant-garde design accessories.

All phases of production are carried out internally: from the creation of graphics, conceived by a network of designers and artists, to the printing of paper using advanced digital technologies.

All the projects are characterized by their ability to be customized.

Fibra di vetro

EQ•Dekor

Quando carte da parati è sinonimo di protezione.

Dalla collaborazione fra Inkiostro Bianco e Mapei nasce un rivestimento rivoluzionario: EQ•Dekor, la carta da parati dalla duplice funzione protettiva e decorativa e dalla duplice applicazione a parete o a pavimento.

EQ•Dekor è molto più di una semplice carta da parati. Alla creatività dei designer e degli artisti di Inkiostro Bianco, che rende ogni rivestimento una piccola opera d'arte, affianca prestazioni strutturali che permettono di minimizzare il rischio di distacco di componenti delle pareti in caso di sismi e di prolungare conseguentemente il tempo di evacuazione dagli edifici.

EQ•Dekor si basa sull'innovativo sistema MapeWrap EQ System, prodotto prestazionale proposto da Mapei che presenta requisiti di ottima efficienza in caso di sisma. Un rivestimento di tessuto bidirezionale in fibra di vetro applicato con un adesivo monocomponente all'acqua ad alta tenuta garantisce ottime prestazioni in caso di terremoto. Maggiore stabilità, massima efficienza, estrema leggerezza, flessibilità strutturale sono solo alcuni dei benefici raggiungibili grazie al nuovo sistema Mapei.

La semplicità di utilizzo e la procedura di posa offerta da MapeWrap EQ System fanno di EQ•Dekor un prodotto altamente funzionale: stendendo un primo strato di EQ•Dekor Adhesive su un intonaco preesistente, è possibile procedere all'applicazione dei rivestimenti in fibra EQ•Dekor, i quali assicurano la protezione dal collasso delle partizioni secondarie. Interpretato in maniera creativa da Inkiostro Bianco e decorato con una varietà di affascinanti grafiche e decori concepiti da prestigiosi designer e artisti che collaborano costantemente con l'azienda, il sistema Mapei si trasforma nella linea EQ•Dekor, il "seismic wallpaper" dall'intrigante quanto eclettico gusto estetico.

Carta vinilica

Le soluzioni visive per l'arredamento Inkiostro Bianco vengono realizzate interamente in Italia e rispondono alle normative europee per la salute e la tutela dell'ambiente.

Il supporto è formato da due strati. Il lato superiore è in vinile, il lato stampabile, e nel retro uno strato di TNT (tessuto non tessuto) che conferisce le seguenti caratteristiche al prodotto:

- Inassorbente e inodore;
- Lavabile con acqua e sapone neutro;
- Ignifugo;
- Elevata stabilità dimensionale durante le fasi di applicazione e asciugatura del prodotto;
- Facilità di montaggio e di eventuale rimozione del prodotto.

EQ•Dekor

When Wallpaper Means Protection.

From a partnership between Inkiostro Bianco and Mapei comes a revolutionary covering: EQ•Dekor, the dual-function wallpaper for both protection and decoration with dual-application for walls or floors.

EQ•Dekor is much more than a simple wallpaper. Paired with the creativity of Inkiostro Bianco's designers and artists – who turn each wall covering into a little work of art – are structural characteristics that minimize the risk of parts of the walls detaching during earthquakes, consequently lengthening the evacuation time of buildings.

EQ•Dekor is based on the innovative MapeWrap EQ System, a high-performance product by Mapei with all the requisites for outstanding efficacy in the event of seismic activity. A bidirectional glass fibre fabric cladding applied using a strong-holding single component water-based adhesive guarantees excellent performance in the event of an earthquake. Greater stability, extreme efficacy, extreme lightness and structural flexibility are just some of the benefits that this new Mapei system offers.

The simple use and basic application procedure allowed by the MapeWrap EQ System make EQ Dekor a highly functional product. After spreading an initial layer of EQ•Dekor Adhesive onto the pre-existing plaster, the EQ•Dekor fibre cladding can then be applied to prevent the collapse of the secondary partitions.

Creatively interpreted by Inkiostro Bianco, and decorated with a range of charming graphics and flourishes conceived by eminent designers and artists who continuously collaborate with the company, the Mapei system has been transformed into the EQ•Dekor collection, an intriguing and eclectic "seismic wallpaper".

Vinyl wallcovering

The visual solutions for the Inkiostro Bianco furnishings are carried out entirely in Italy and meet the European standards for health and environmental protection.

The support where the graphics subjects are printed is a vinyl with a layer of TNT (non-woven fabric) on the back that confers the following characteristics to the product:

- Non-absorbent and odourless
- Washable with mild soap and water
- Fire resistant
- High dimensional stability during the application and drying stages of the product
- Extremely easy to put up and take down if necessary
